

Hawaii Subcounty Population Facts for July 1, 2013

The U.S. Census Bureau released its subcounty population estimates on May 22, 2014. These annual statistics cover all local governmental units, including incorporated places such as cities and towns. Hawaii is the only state that has no incorporated places recognized by the U.S. Census Bureau. Through an agreement with the Bureau, Urban Honolulu Census Designated Place (CDP) is the only subcounty area in Hawaii estimated by the Bureau on an annual basis. Urban Honolulu CDP encompasses an area bordered by Nimitz Highway, Aliamanu Drive, the Koolau Ridge, Waialae Nui Stream and Waialae Nui Canal.

Urban Honolulu CDP

Change from April
2010 to July 2013

35.4%

Share of Oahu's
population

54

National ranking on
July 1, 2013

From April 1, 2010 to July 1, 2013, Urban Honolulu CDP had a 3.2% growth in population and increased from 337,256 to 347,884. This growth was the same as the rest of Honolulu, the City and County of Honolulu, and the entire state. It was, however, higher than the growth for Hawaii County (3.1%), but lower than the growth rate for Maui County (3.5%) and Kauai County (3.6%).

Urban Honolulu CDP accounted for 35.4% of Oahu's population in 2013, while 64.6% of Oahu's population lived on the rest of Oahu. Since the population of Urban Honolulu grew at the same rate as the rest of Oahu, no change in population shares occurred over the period beginning April 1, 2010 and ending July 1, 2013.

The Urban Honolulu CDP area ranked 54th among all incorporated places in 2013. This was a slight drop in ranking from April 1, 2010, when it was in the 53rd position. Ranking was based on population size with the largest being ranked first.

New York City was the largest city in the U.S. with 8.4 million people, followed by Los Angeles with 3.9 million people. Chicago was ranked the third largest city with a population of 2.7 million. Houston and Philadelphia were the next two in population size with 2.2 million and 1.6 million people, respectively.

Background information:

CDP stands for **census-designated place**. A CDP is an area identified by the U.S. Census Bureau for statistical purposes. CDPs are delineated for each decennial census as the statistical counterparts of incorporated places such as cities, towns, and villages. CDPs are communities that lack separate municipal government, but which otherwise physically resemble incorporated places. CDPs are delineated to provide data for settled concentrations of population that are identifiable by name but are not legally incorporated under the laws of the state in which they are located. The boundaries of a CDP have no legal status.

In 2010, the former Honolulu CDP was mostly divided into Urban Honolulu CDP and East Honolulu CDP. A small portion of the former Honolulu CDP became part of Hickam CDP. Urban Honolulu and Arlington are the only CDPs for which postcensal population estimates are calculated by the U.S. Census Bureau.

The reference map for the Urban Honolulu CDP and the East Honolulu CDP area may be found at:
